| 7. Accessories & Cables pocket | |

This custom carry-on case by Foama is crafted specifically for the Sony FX-6, with precision-cut EVA foam inserts that hold the camera body, batteries, chargers, and media storage securely, minimizing movement and protecting against shocks and vibrations. Built with the rugged Nanuk N935 model, the case's water and dust-resistant shell shields your gear from environmental elements. Compact and airline carry-on approved, this professional case is ideal for filmmakers who need secure, organized storage and reliable protection for their Sony FX-6 wherever they go.
